

Student Technology Tools

The technology tools listed below will be utilized by students in their TUHSD courses. Although not a comprehensive list of every technology tool, these are the common tools between all courses.

	School and district communication will be sent to your student's school email address via Gmail . Students will log into their school email through the Gmail portal located here .
	Students can store files in their school Google Drive , accessible from their school email account. Google Drive for Education offers unlimited storage space for our students to store files for school. Google Drive works seamlessly with Schoology so that students can complete their assignments within Google Drive and submit them to Schoology.
	Schoology is where all of the course content is shared with our students. Students will use Schoology to turn in assignments, take tests, and learn new content. Each course that your student is enrolled in will have it's own Schoology course that is managed by your student's teacher. You can create a Schoology account that is tied to your child's account, so that you can be up to date on what is occurring in their courses.
	Many courses in TUHSD have an electronic textbook associated with the course. More information regarding student textbooks can be found in your student's Schoology course.

Parent and Student Support Contacts During Business Hours

Front Office Hours: Monday – Friday: 7:30 AM – 4:00 PM

Please use the guide below to contact the appropriate support person for your needs. **Emails are preferred**. If students are having issues, they need to email from their student Gmail accounts.

Logging into StudentVue and ParentVue	Amanda Domino - adomino@tempeunion.org 480-706-7900 ext. 70151
