Download the pivot program from a website to a computer and download to calculator (requires Ti-Connect software be installed on computer – instructions on back of this page)

Download pivot program to computer:

- 1) Browse to www.ticalc.org/pub/83plus/basic/math/linearalgebra/
- 2) Save pivot.zip to your computer
- 3) unzip to get the pivot folder containing the Pivot.8xp file

Use Ti-Connect software to download Pivot program to your calculator:

- 1) Connect calculator to computer using USB-to-calculator cable and turn calculator on.
- 2) Run the Ti-Connect software
- 3) Click 'Send to Ti Device'
- 4) Click 'Select Device' it should search for and find your calculator. Click Select to select your calculator.
- 5) Click the 'Browse' button at the top
- 6) Locate the Pivot.8xp file you downloaded and select it so it is added to the list of files.
- 7) Click the Pivot file in the list, then click 'Send to Device'. Should say 'transferring...'
- 8) Verify the file in on your calculator by clicking the PRGM button

Download and install Ti-Connect Software to a computer

- 1) Browse to <http://education.ti.com>
- 2) Click on Downloads, Apps, Software and updates
- 3) In the Technology pulldown box, select your calculator
- 4) In the View pulldown box, select Connectivity software
- 5) Click 'Find'
- 6) Select Ti-Connect Software for your computer
- 7) Download the program and install
